Source: This information was obtained from the Hospital Admission Card data files (1942-1945; 1950-1954), created by the Office of the Surgeon General, Department of the Army. During 1988, this secondary source material was made available to the National Personnel Records Center by the National Research Council, a current custodian of the data file. The file was originally compiled for statistical purposes; therefore, name identification does not exist and sampling techniques were used with the result that not all hospital admissions are included. Veterans on the file are identified by service number and other data related to hospital admission.
